## PROFESSIONAL SUMMARY

---

Computer Science Engineering student with strong foundation in Python, Java, and web development. Experienced in building scalable web applications and solving real-world problems. Seeking opportunities to contribute to software development and backend engineering roles.

## TECHNICAL SKILLS

---

- **Languages:** Java, Python
- **Web:** HTML, CSS, JavaScript
- **Tools:** Git, GitHub, VS Code
- **Concepts:** OOP, Data Structures (Basic), Problem Solving

## PROJECTS

---

### Smart Vehicle Parking Management System

- Designed and developed a web-based parking management system to automate slot allocation.
- Improved parking efficiency by reducing manual tracking and optimizing space usage.
- Implemented using Python for backend logic and HTML/CSS for frontend interface.

## EXPERIENCE

---

### Salesforce Developer Intern

- Built and customized CRM solutions using Salesforce platform.
- Automated workflows and business processes, improving operational efficiency.
- Managed and structured customer data for better accessibility and reporting.

## EDUCATION

---

|                                                                   |             |
|-------------------------------------------------------------------|-------------|
| <b>Bachelor of Technology in Computer Science and Engineering</b> | 2022 – 2026 |
| Annamacharya Institute of Technology and Sciences, Tirupati       | CGPA: 7.5   |
| <b>Intermediate (12th Grade)</b>                                  | 2020 – 2022 |
| Percentage: 67%                                                   |             |
| <b>10th Grade</b>                                                 | 2020        |
| Percentage: 95%                                                   |             |

## CERTIFICATIONS

---

- Google Cloud Computing Foundations
- NPTEL Certification in Computer Networks
- NPTEL: Object Oriented System Development Using UML
- NPTEL: Java and Patterns
- NPTEL Certification in E-Business
- Software Project Management
